

October 08, 1999

Dear Commissioner Henney:

Sugar consumption has risen 25% in the U.S. since 1984. I would like the FDA to establish a "Daily Reference Value" for added sugar of 40 grams and to require labels that would show how much added sugar a food contains. Then consumers could eat a healthier diet and cut down on sugar, if so desired. Thank you for your consideration of this important dietary guidance.

Yours truly,

Alan Oxley
